

Yamal LNG confirms compliance with ISO 14001:2015 and OHSAS 18001:2007

Moscow, June 26, 2017

JSC Yamal LNG (hereinafter — YAMAL LNG) has passed the external recertification audit of the ***Integrated Management System in Health, Safety, Environment and Social Responsibility*** (hereinafter — IMS).

British Standards Institution (BSI), an international certification authority, based on the substantiated evidence obtained during the audit conducted from June 05 through June 15, 2017, confirmed Yamal LNG's compliance with IMS requirements set out in the new revision of the international standard ISO 14001:2015 — Environmental Management System and OHSAS 18001:2007 — Occupational Health and Safety Management System for the declared scope of certification. The validity of the certificate has been extended to June 24, 2020.

Background

Yamal LNG has held ISO 14001 and OHSAS 18001 certification since June 2014.
